WWW.WOODPLASTIC.EU

DO YOU DREAM OF BEAUTIFUL, LUXURIOUS DECKING WITH THE GRACE AND NOBILITY OF WOOD, BUT DREAD THE HOURS OF ANNUAL MAINTENANCE? DO YOU WANT TO JUST RELAX ON YOUR DECKING WITH YOUR FAMILY AND FRIENDS?

Now you can with our revolutionary material WoodPlastic®, which combines wood (60 %) and a high-quality, non-toxic HDPE polymer (40 %) at just the right ratio, making it one of the strongest and most durable low maintenance materials for your decking. The ideal properties for exterior use were achieved thanks to the revolutionary process and laser technology of Strandex (USA), which is one of the most advanced WPC technologies owing to many years of development and testing.

MANUFACTURED IN EUROPEAN UNION

WoodPlastic® products are made in the Czech Republic with US-licensed Strandex technology.

UP TO 25 YEARS WARRANTY

We trust in our WoodPlastic® products. That's why we provide a warranty lasting up to 25 years.

SAFETY – SPLINTER – FREE

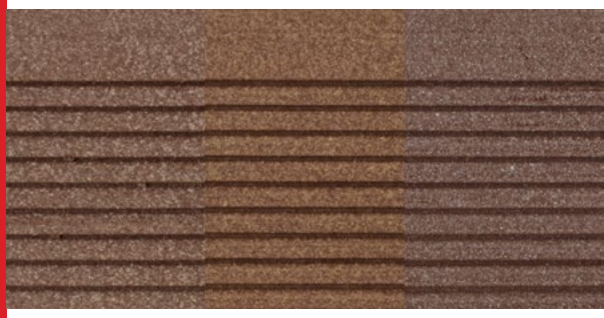
WoodPlastic® decking has an anti-slip surface, and unlike wood, never leaves splinters.

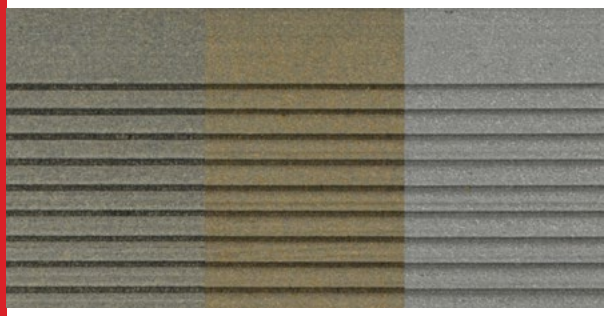
EASY CLEANING – NO COATING

The WoodPlastic® decking, unlike wooden ones, requires no waxing, oil-coating.

COLOR MATURING

INSTALLATION **1 MONTH** **25 YEARS**





HIGH RESISTANCE AND COLOR FASTNESS

WoodPlastic® decking is highly durable and color fast in all weather conditions and resistant against UV, salt and chlorinated water.
